

FOR IMMEDIATE RELEASE

Spargo Salon and Day Spa Moves to New Location

PEWAUKEE, Wis. -- Beginning November 29, Spargo Salon and Day Spa launches their grand re-opening at 1001 Cecelia Drive in Pewaukee. This brand new facility is custom in design, architecture and amenities, and promises to be one of the top Salon and Day Spa's in the Midwest.

Established in July of 2000 with 2,400 square feet, this newly built facility triples in size to 7,800 square feet. The building was designed and built by Spargo family members with frequent feedback from both consumers and industry professionals. Spargo's interior combines original US artwork and original Roman artifacts complementing old world Mediterranean design. The salon maintains the existing al fresco design of curved stations offering private and open space. Inspired by bath houses of the ancient Romans, Spargo's spa design captures the art of the spa experience with cascading waterfalls, atriums, steam room, custom Kohler 'Water Tower Experience' showers, multiple treatment and relaxation areas, a private outdoor veranda and so much more.

Spargo offers a complete selection of salon and spa services, including couples services in our Signature "Augustus" Room where customers can immerse themselves in a sensual experience of a Kohler Overflow Sōk Tub while the fireplace glows upon the arched ceiling. From Signature services to custom décor, Spargo Salon and Day Spa is truly a state of the art experience where customers feel like family.
